## MORE TERMINAL TALK

The Chamber of Commerce Meeting Tomorrow Afternoon Will once More Consider Terminals.

It May Be the Last Opportunity For Securing the Mississippian and Northern Road For Duluth.

There is a Possibility of a Very Lively Meeting—The Sargent Proposition and the Council.

So far as the Duluth, Missabe & Northern road is concerned it would seem probable that the terminal meeting to be held tomorrow afternoon by the chamber of commerce will be the "last call for dinner." Just what will be the result of the meeting is a little vague, but there is a general expectancy that something extraordinary may turn up. It is no secret that there is considerable inside history, and some of it of a very interesting character, in relation to the matter. It will make reading when it comes out, and it is liable to become public, and it is liable to become public at almost any time. It is a matter which has been discussed in the chamber meeting with the variety of one of the men who is a representative of one of the various interests was called in question. If he had replied to the charge the whole story would have been told. He did not and the whole matter was allowed to rest until a future occasion. There is no special reason why there should be any disclosures at tomorrow's meeting, but certain people who are in a position to know assert that it is more than probable that there will be a meeting which will be a last effort to reconcile interests which so far have been kept widely apart. The Missabe is Northern people have decided to go to Superior for their ore docks and while the arrangement is in a measure temporary it is likely to be permanent. The meeting tomorrow is to devise some means by which will establish the ore docks and terminals of the Missabe road on this side of the bay. Mr. Chase, when seen by a Herald reporter this morning, said in relation to the matter: "I do not know what the meeting is to do and know only indirectly that the subject of west end terminals with particular reference to our road is to be discussed. I had a talk some days ago with a prominent Duluthian and the matter of terminals was gone over very earnestly. He was of the opinion that the difficulty was in a misapprehension of the importance of the question, and thought that if a proper presentation could be made to the board of the city a final agreement could be reached. This may be the object of the meeting, but I do not know that such is the case. We have no proposition to make. We waited as long as we possibly could for some action on moment made arrangements for handling our ore on the other side of the bay. We are not enough fixed now, but can come to Duluth as soon as satisfactory terms are made. We can not enter upon any terms yet offered, to have accepted them would have been simply ruin for us, and we could not be expected to voluntarily bankrupt ourselves. When will not only be glad to entertain it, but will co-operate in every possible way in doing it."

The question of East End terminals may also come up, but it is hardly probable. The Sargent proposition is now before the council will be considered at an executive session of the council to be held on Monday afternoon. It is expected that the decision will be favorable and that the ordinance will be taken up on Monday evening for passage.

## HE WANTED TO DIE.

A Case of Deliberate Suicide on the Iron Range Road.

A southbound train, which left Tower Junction last Friday evening, ran over and killed a man at Embarras river, says the Iron Journal. It was plainly a case of suicide. The train was doing some switching and had run onto the Y. When the train was backing out to the main track the unfortunate deliberately stepped over on the track, in front of the approaching caboose and knelt down, assuming a praying attitude. The trainmen applied the brakes immediately, but could not stop the train, and the caboose and one truck of a heavily loaded ore car passed over him.

As Brakeman Brady pulled him out from under the train he protested: "Let me alone, I want to die." Asked his name he replied: "Never mind my name, let that die with me." When asked what he had done that was to die he said: "Oh, I have done everything," but he retained a stoical silence as to his identity. He was brought to Tower on a special engine, arriving at 9:50. Dr. Noble was called and pronounced the injuries a fatal character and the unfortunate died at 11 o'clock.

Owing to the absence from town of Deputy Coroner Shephard, John Boden, deputy at Elly, was summoned. He arrived Saturday morning and immediately identified the remains as those of Victor Blair, a miner who had been employed in the Chandler mine for two or three years past. After questioning the train men sufficiently to establish the fact that Blair had deliberately committed suicide, he deeded an inquest unnecessary and the remains were buried. Blair was a man about 35 years old. While in Tower he drank considerable liquor. He experienced some sort of religion recently and it is believed he became crazed by brooding over this subject.

New Postal Guide.

A complete postal guide for the city of Duluth, which will be corrected quarterly has just been issued with the contents of the Duluth, South Shore & Atlantic railway. MORE SLATE-WRITING.

Some Interesting Questions to the Public.

He C. concerning the slate-writing, and by that is meant writing done in a folding slate, or between two slates held together by a cord, with no human hand guiding the pencil? Can you produce such writing?

And if you cannot, do you believe that anyone else can?

If anybody else can, would not you like to see it done?

Would you believe your own eyes if you should actually see such writing done?

If convinced that such writing can actually be produced by some intelligence, and without any human agency, would not that fact go a long way toward convincing you that it is done—as it claims to be—by spirit power?

If you would like to see such writing done, would you not like to see it done in a public audience, in full view of all those present and under the strictest test conditions?

If so, you should not fail to see and hear Mrs. De Wolf, of Chicago, at I. O. O. F. hall next Sunday at 10:30 a. m. to 7:30 p. m.

This gifted lady is one of the most noted lecturers and slate writing mediums in the country, and she is also a lady of the very highest social standing. She is also one of the very few persons in the world possessing sufficient magnetic or spirit power to give the wonderful phenomena of slate-writing in a public audience.

Mrs. DeWolf will remain here during the month of May, lecturing twice each Sunday, and giving private slate-writing sittings during the week. Her lectures during her stay here, all persons in the city and vicinity who care to satisfy themselves as to whether or not slate-writing can really communicate with us through the medium of a slate and pencil, can have ample opportunity so to do.

The price charged by slate-writing mediums generally for private sittings is from \$1.00 to \$2.00, but the price of admission to Mrs. DeWolf's lectures on the remaining Sundays in the month, it is quite probable that a higher admission will be charged, for it is nothing but fair that enough be collected at these meetings to pay the salary of the speaker and the rent of the hall. At the first two meetings, if charged for, the hall will be crowded. Hence, all who wish to be sure of seats would do well to go early.

The Check Was Forged.

Edward Oswald, a young man of very good reputation and connections in Duluth, left the city on Wednesday for Chicago. Before leaving he cashed a check for \$25 with a Lake avenue saloonkeeper named Quinn. The check purported to be signed by Smith & Coulter, and since turned out to be a forgery. His friends claim that Oswald must have been innocent of the crime, and that he has his former good reputation to back up their theory. In any case no criminal prosecution is at all likely.

WHEAT SLIGHTLY HIGHER.

An Advance of One Quarter of a Cent on the Duluth Board.

A very steady market prevailed here in the early hours today. Trading was not remarkably active, but large lots changed hands in the May and July futures. There was considerable bullish sentiment in the session, and a report in the Mark Lane Express of a report in the English markets will collapse on account of excessive stocks of breadstuffs.

The latter portion of the session was very steady, but slow, and the amount of wheat which changed hands in the May and July futures was not very large. The close was dull at 1/4 advance over yesterday, except for track and rejected wheats, which were unchanged.

Following were the closing prices: No. 1 hard—Cash, 82 1/2¢; April, 80 1/2¢; May, 83¢; June, 84 1/2¢; July, 85 1/2¢. No. 1 northern—Cash, 82¢; April, 78 1/2¢; May, 80 1/2¢; June, 82¢; July, 83¢. No. 2 northern—Cash, 73 1/2¢; No. 3, 69¢; rejected 68¢. On track—No. 1 hard, 83¢; No. 1 northern, 80 1/2¢.

Car inspection for today—No. 1 hard wheat, 22¢; No. 2 northern, 21¢; No. 2 northern, 11¢; No. 3 spring, 6¢; No. 4, 12¢; total, 17¢.

W. T. Bailey Has to Pay \$20 to a Tower Man.

During last December W. T. Bailey, the lumberman, bought some pigs of E. Barnidge. Some time previous to the purchase a pig of Mr. Barnidge and it continued to run with the latter's pigs. When Bailey came after his porkers he was shown the Stackmessenger pig and told not to take it. It appears that he did take it, however, but claimed that it was taken by mistake, but Stackmessenger claims it was taken willfully and with intent to defraud. Consequently he brought suit against Bailey for \$86, valuing the pig at \$50 and asking \$36 damages.

The case was tried before a judge in municipal court at Tower last Wednesday and the jury awarded the plaintiff \$20. The trial created no little interest and amusement and was attended by a large number of citizens. Attorney Grettum conducted the plaintiff's case and Attorney Rustgard took the defense.

## PRISCILLA THE PILGRIM

The New Light Opera Which Will Be Presented at the Lyceum by Duluth Amateurs.

The Duff Opera Company in Their Latest Success and Gorton Minstrelers are Coming Attractions.

Some Bits of Dramatic Gossip About People Prominent in the Banks of the Profession.

"Priscilla, or the Pilgrim's Proxy," is based on Longfellow's charming poem, "The Courtship of Miles Standish." Not until recently were the elements of comedy in this poem appreciated. Yet when once the suggestion is made it draws upon all what an exquisite travesty may be made up of the rare and radiant maiden of Longfellow's dainty tale; the diffident lover so embarrassingly charged with the suit of another, the gruff warrior hiding his tender passion under the guise of business, the stern old Puritan and simple life of the early colonists, Gilbert and Sullivan never had half so good material and it only needed authors who, by birth and breeding, could appreciate its character to combine the materials into the richest bouquet of stage amusement. These authors have been found in Mr. Henry D. Coolidge, of Concord, quite well known as the clerk of the Massachusetts senate, and Mr. Thos. W. Squire, of the same town, a pupil of Mr. Arthur Foote and conductor of the Concord Choral society. Both of these gentlemen brought to their task a proper preparation of literary and musical training, and the work they have produced is undoubtedly one of the best American operas. It was first brought out in Concord and it carried the town by storm. There is no reason why our Duluth amateurs should not do the same thing here for there is some exceptionally strong talent in the cast and under the able direction of Signor Sala the company are making rapid strides toward professionalism.

DUFF OPERA COMPANY.

Spectacular Comic Opera at the Lyceum.

Thursday, Friday and Saturday, with Saturday matinee, the Lyceum will have one of the most popular attractions on the road this season, the J. C. Duff Opera company, in the new success, "The Queen's Mate," which has gained popular favor in all the Eastern cities. The opera will be staged here in the same elaborate manner as when it was presented in New York and Boston and will be a grand spectacular production of Chas. Lecocq's beautiful piece. The cast of the principal roles includes many artists who are well known here. Among them are Mr. John J. Raffael, Mr. Richard F. Carroll, Mr. W. H. Clark, the well known and popular basso lately of the Boston Ideal, Mr. Henry Stanley, Melville Stuart, Mr. Carl Hartberg, Mr. Wm. Shuster, Miss Helen Bertram, Miss Helen Bertram, Miss Helen Bertram, and incidental dancing by Miss Gussie Cogan. This superb company are here for but three nights with matinee Saturday, and as Duluth audiences appear to be very partial to opera a large business is assured.

Gorton's Minstrels at the Temple. En route to British Columbia and the far off coast generally, Gorton's original New Orleans minstrels, twenty in number, will stop one night in Duluth, Tuesday, May 3rd, and give one of their famous entertainments of genuine old-time minstrelsy at the Temple Opera house. This organization long ago won the confidence of the ladies, and there is not a minstrel company in existence that enjoys such a large following and patronage from the fair sex, and it is deservedly so as Mr. Gorton never fails to put an iron-clad clause in his contracts with his artists that there will be nothing in the least objectionable in their portion of the performance. As this is the twenty-fifth year of Gorton's minstrels, and he has won his present honorable position by his rigid adherence to the foregoing principle, no lover of old-time, high-class refined minstrelsy can afford to miss his one evening here.

"She Couldn't Marry Three." Next Saturday night, May 7, Miss Lillian Kennedy will present for the first time in this city at the Temple theater her successful comedy drama, "She Couldn't Marry Three." Press and public accord both star and play an ovation whenever presented. Miss Lillian Kennedy is said to be one of the most versatile actresses before the public. She sings a ballad or comic song, dances a graceful skirt dance or break-down, and all she does is imbued with the spirit of an innate artist. She is surrounded with an excellent company. All the scenery used is carried by the company.

Dramatic Gossip. Bessie Sanson, of Frank Daniels company has the honor of being the first lady guest at the magnificent new Victoria hotel at Winnipeg.

Louise Essing, who was granted a divorce last September, was married to Cyril Scott, the fact being kept from the public until recently.

George W. Lederer and Prof. Hermann have transferred their legal battle about the ownership of that dreadful bad play "U and I" to the Philadelphia court.

Archibald Gunter's "Miss Nobody of Nowhere" has been dramatized and will be produced next season.

Chas. Crawford and Harry McKisson have been re-engaged for next season by Manager Henderson.

Grattan Donnelly's new play, "Her

Ladyship," is to be produced at the Philadelphia Broad street theater May 16. Next season Gus Williams is to appear in a new eccentricity called "April Fool."

Frank Daniel's new play, "Dr. Cupid," is now in rehearsal. His tour will extend sixteen weeks and cover the Pacific slope.

FOR YOUNGER MAIDS.

Gowns for the Little Sisters Who Are Not Yet in Society.

The little girl of fashion has styles distinctly her own, and entirely different from "sister," who is one of the season's buds.

The one who is looking forward to the time when she may don the trailing gowns and high coiffure of the full-fledged belle must rest content with the cloth cheviot, crepon or cashmere gowns her mother chooses, and wear the picturesque simple cotton fabrics so suitable for her years and the coming season.

She is just as charming in her sweet simplicity as the coveted one and will in the future, when the bloom has been brushed from the rose, look back on these days as the only ones of unalloyed pleasure in all her life, notwithstanding the worry about plain frocks.

There are some charming styles for these 14 or 15-year-old maidens. A specimen is of apple green pongee silk, smoked across the yoke and around the cuffs. The sleeves are very full and the yoke is outlined with creamy yellow lace and apple green velvet roses.

An outing suit of white Bedford cord has a full vest of yellow silk and a yachting cap trimmed with gold braid matches the costume. The skirt is full and plain and the jacket as jaunty as could be desired.

A bristled suit of poppy-red crepon has black velvet suspenders harness-like from the waist line over the shoulders and ending in long ends in the back.

For an informal dance when she goes away this summer, pretty gauzy gowns simply trimmed with ribbon are just the thing. They are always high-necked and long-sleeved.

## The Weather.

17. S. WEATHER FORECAST, DULUTH, MINN.,  
April 30.—The low area that was forming over  
Western yesterday has moved rapidly and un-  
expectedly eastward and is central this morning  
over South Dakota. Rain and snow is falling  
over the Northwest, while in other sections  
generally fair weather prevails.  
The storm will probably move east, passing  
over this section, and cause high easterly winds,  
shifting to southwest and west.  
The temperature remains high, except along  
Lake Superior, where it is about 20° lower than  
in the surrounding country. As all the stations  
in the Northwest are now, and have been since  
for several days, it cannot be told whether  
there is any cold weather in that section or not.  
The coldest place this morning is Helena,  
Mont. 25°.  
The highest temperature here yesterday was  
43°; the lowest last night 30°. Rain and snow  
show up to 7 this morning 0.10 inch.

Forecast, April 30.—Local forecast for Duluth  
until 8 p.m., May 1: Rain; slightly warmer, fol-  
lowed by clearing and colder Sunday.  
H. H. Bussard,  
Observer.

WASHINGTON, April 30.—Forecast till 8 p.m.,  
tomorrow: For Wisconsin: Showers; south-  
west gales. For Minnesota: Thunder storms  
this evening; east gales.

## TO THE PUBLIC.

The rush of advertising was so great  
that The Herald was obliged to refuse  
several merchants the space they desired  
in this afternoon's edition, and even with  
the amount of advertising that was ac-  
cepted the columns are so crowded that  
an apology is due readers for insufficient  
space for reading matter.

If all the advertisers had followed the  
advice which has been given by The  
Herald repeatedly, and sent in their  
copy on Friday, a larger sized paper  
could have been issued today and all ad-  
vertisements could have been accepted  
and given good positions. It is hoped  
that they will attend to this matter next  
week.

## WHAT DO THEY WANT?

Another meeting in reference to termi-  
nals matters, particularly in regard to  
securing the location of the ore docks  
and terminals of the Duluth, Missabe &  
Northern road in Duluth, is being held  
at the Chamber of Commerce rooms this  
afternoon. There have been several  
meetings at the same place on this sub-  
ject, and with similar results to what will  
probably be the result of the meeting  
this afternoon—much talk but no definite  
action.

The Missabe people are constantly  
asserting that they are anxious to secure  
an entrance into Duluth and are ready  
to locate their ore docks on this side of  
the bay, if the citizens will extend the  
assistance required. They have stated  
this on several occasions. On the other  
hand, the citizens present at the various  
meetings and a majority of their repre-  
sentatives in the common council have  
expressed their willingness to deal fairly,  
even liberally, with this road, believing  
that the location of the terminals here  
would be a great benefit to the city and  
county in many ways. The common  
council has also granted to the company  
certain right-of-way privileges, and the  
officials of the company stated that they  
were perfectly satisfied with the  
facilities thus provided, which are  
ample for the present. The right-of-way  
which has been granted by the city, in  
connection with a right-of-way granted  
by the West Duluth council, will give the  
road an entrance to the point where it  
has been proposed to locate the ore  
docks. Thus it will be seen that the  
company has been well provided for, so  
far as its present requirements demand.  
There is a disposition to grant further  
privileges when they are needed, and at  
the various meetings the sentiment has  
favored the granting of bonds to the  
amount of \$200,000 or more by the county  
to aid in the erection of the ore docks  
and the establishment of other ter-  
minals.

In view of these circumstances it is  
perplexing to the citizens to understand  
why the Missabe & Northern people  
should now say that they are compelled  
to locate their ore docks on the Wiscon-  
sin side of the bay. What more do they  
want? It appears to The Herald that,  
before taking such a position, they should  
make a definite proposition to the citi-  
zens of Duluth. They should state ex-  
actly what they do want, put it  
in writing and in plain language  
that cannot be misunderstood, and  
then give the citizens an opportunity  
to say whether they are willing  
to approve it. Until that is done, it  
does not lie in the mouth of any man  
connected with the Missabe & Northern,  
or any other road, to say that the people  
of Duluth are doing nothing to aid them  
in coming here or that they are indiffer-  
ent towards their coming.

President Chase, of the Missabe &  
Northern, is reported to have said to an  
interviewer, yesterday: "We have no propo-  
sition to make. We waited as long as  
we possibly could for some action on the  
part of Duluth and then at the last mo-

ment made arrangements for hand-  
ling our ore on the other side of the bay.  
We are well enough fixed now, but can  
come to Duluth as soon as satisfactory  
terms are made. When any reasonable  
proposition is made, we will not only be  
glad to entertain it, but will co-operate  
in every possible way in our power." This  
is not a satisfactory statement, and Mr.  
Chase knows just as well as any citi-  
zen of Duluth that it is not. It is merely  
begging the question, and unless he is  
prepared to make a proposition  
and let the people know exactly  
what he and his associates do want, the  
impression will assuredly be created that  
he is merely playing fast and loose with  
both Duluth and Superior, and is not as  
anxious as he professes to locate the  
road's docks and terminals in Duluth.

The citizens of Duluth and of St. Louis  
county are prepared to deal liberally  
with the Duluth, Missabe & Northern  
road. They are ready to vote substan-  
tial aid, and to grant further right-of-  
way privileges. But they cannot grant  
these things, until they know what the  
road wants. Let Mr. Chase cease deal-  
ing in glittering generalities and make a  
definite, practical proposition for the  
consideration of the citizens. Until he  
does that, let us hear no more com-  
plaints that Duluth is not performing its  
full duty towards the road.

One of Baltimore's "400" attended a  
reception a few nights ago and was in-  
dignant because champagne did not ap-  
pear on the menu card. He accordingly  
bounced up one of the committee on ar-  
rangements and protested against the  
boycott of his favorite beverage by  
striking the committeeman. Pistols for  
two are expected to result. There are  
evidently some queer people in Mary-  
land.

The Republican primaries in Montana  
last week resulted in a victory for the  
anti-Harrison president. The first choice  
of a large majority of the delegates  
elected is Blaine. They oppose Harri-  
son on account of his attacks on free  
silver coinage, and yet there is nothing  
to indicate that Blaine favors the cheap  
money heresy.

The Northwestern Lumberman says:  
"Duluth claims a population of 50,000.  
This added to the population of the  
towns that cluster around St. Louis bay  
makes a total of 75,000." This is cor-  
rect, and at the present rate of progress  
there will be 100,000 people here before  
the end of 1893.

The cashier of the Rothschilds at Ber-  
lin, who robbed the firm of nearly \$500,-  
000, received a salary of only \$1000 a  
year. While a small salary is no ex-  
cuse for his crime, it certainly shows that  
the Rothschilds deserve no sympathy.  
A man holding such a responsible posi-  
tion was entitled to more salary.

In a Chicago court last week, two at-  
torneys had a dispute and finally pre-  
pared to fight. A bailiff rushed to pre-  
serve the peace, when both attorneys  
pounded him. This relieved their feel-  
ings, and did not hurt either. The road  
of the peace-maker is frequently strewn  
with cruel thorns.

The archbishop of Canterbury,  
the leading ecclesiastic of the Episcopal  
church, favors the opening of the White-  
chapel museum on Sunday. Why then  
should not the Episcopal bishops, rectors  
and curates in this country favor the  
opening of the World's fair on Sundays?

A Butte City woman who found three  
diamonds in the craw of a chicken says  
they appear to have been there for ages.  
The craws of all boarding house chick-  
ens should hereafter be carefully ex-  
amined. If age counts, all boarding  
house keepers should wear diamonds.

Footpads held up a horse trader in  
Grand Forks, and now the authorities  
are puzzled to decide whether the foot-  
pad really committed a crime. It is just  
possible that the horse trader will get  
the longest sentence.

The city campaign in St. Paul is de-  
veloping into a very bitter contest.  
Charges and counter-charges are being  
hurled back and forth between the con-  
tending parties and it is hard to tell  
which side is Wright.

Princess May of Teck will have to  
marry the brother of her dead fiancé.  
And, if all reports be true, the living  
brother is the best of the two. It is hard  
to see, however, where love plays any  
part in the affair.

Lieut. Totten, who insisted that the  
end of the world would come early this  
month, now admits that he was mistaken,  
and is glad of it. This may be taken as  
an indication that he is regaining his  
senses.

The gaudy circus posters will soon  
adorn the fences and the bill boards,  
and the small boy will gaze in open-  
mouthed amazement at the pictures of  
the lions and think of the red lemonade.

It will accommodate 500, and it is said

Open Every School Day During the

Year—No Summer Vacation.

Inquiries are being made every day by  
prospective students regarding our sum-  
mer vacation, to which we answer: We  
will have no vacation. Students may  
enter our college with equal advantage  
any school day during the year. A special  
six weeks' course, beginning July 1, will  
be arranged to accommodate teachers  
or students who may desire to spend  
part of their vacation in pursuing one or  
more of the branches taught at our  
school.

Many of our advanced students have  
accepted excellent positions here in the  
city during the past few weeks. Mon-  
day, May 2, will be an excellent date to  
enter our school, as new classes will be  
organized for those who have already  
completed arrangements to enter on  
that date. Commercial, stenography  
and telegraphy courses. Visitors al-  
ways welcome. Location, 105 and 107

ASTONISHING GROWTH.

A Typewriter Disposed of at the Rate

of One Every Five Minutes.

(Associated Press Telegram.)

New York, Special Telegram, April

24.—Some idea of the present wonderful

growth of the typewriter business may  
be gained from the fact that the sales of  
Remington typewriters for January and  
February, 1892, exceeded those of the  
corresponding months of 1891 by \$150,-  
000. The great and constantly gaining  
popularity of the Remington is clearly  
shown by the fact that the business has  
more than doubled within three years.  
The Remington factory at Ilion, N. Y.,  
employs 700 men to fill the demands  
created by the sales' agents. Wyckoff,  
Seamans & Benedict, who dispose of  
machines at the astonishing rate of one  
every five minutes.

You fellows from the country—you keep away  
from town.  
If you don't want to unsettle things and get us  
upside down,  
For you always leave a memory of the meadows  
An' I straightway get to wishin' and to fishin' in  
my dreams!

You fellows from the country—when you strike  
me at my desk,  
The room begins to blossom an' the street looks  
picturesque!  
And the refrain of the city, with its engines an'  
its bells,  
Seems to melt into the music of the mountains  
and the dells!

You fellows from the country—you get so much  
of life  
So little of its sorrow, of its tears, and of its  
strife,  
That I want to get off with you and just riot in  
your joy,  
And trade in your cool branches, like I used to  
when a boy!

## The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.  
May 2.—The morning's clouds now two storm  
clouds over Duluth, Mich., and the other  
clouds over the lower lakes. Some of  
the heaviest fall in the Duluth region.  
3.25 inches (Cleveland, 1.75, and Chicago, 1.45).  
Rain fell in nearly all sections over the  
state. The temperature remains low over the North  
west and is about the average over the rest of  
the country.  
The weather for this section will probably be  
fair until Thursday.  
The highest temperature here yesterday was  
47°; the lowest last night 34°.

DULUTH, May 2.—Local forecast for Duluth  
until 8 p. m. May 2: Slightly cooler today; rising  
temperature tomorrow.  
B. H. BAGGESSON, Observer.

WASHINGTON, May 2.—Forecast till 8 p. m.,  
tomorrow: For Wisconsin: Fair followed by  
showers; northerly winds.  
For Minnesota and the Dakotas: Fair, followed  
by snow; light easterly winds.  
For North Dakota: Fair, followed by snow; northerly winds.

## A COLLAPSED BOOM.

The recent boom for Knute Nelson, which had a brief but eventful history, rested upon a weak foundation. There was no claim that he was more able than any other man or that he was better fitted to discharge the duties of the governorship. Availability was his only claim. The power to bring back into the Republican fold the Scandinavians who had wandered into the Alliance ranks was the sole basis on which rested his claim. It was asserted that his nomination was essential to Republican success, because he was a Norwegian and would get the Scandinavian vote.

For a time the Nelson boomers made considerable headway. They persuaded many people that they were right and that Nelson was the man for the occasion—the Moses that would lead the Republican party of Minnesota into the promised land of political ascendancy. He would restore the old time Republican majority in this state and carry with him to victory all the Republican candidates for the legislature and for county offices. This was an alluring prospect, and many Republicans, without giving the matter due consideration, fell into line and shouted for Nelson. The boom soared aloft at a lively rate, but like many another boom there came a time when its force was spent and as it went up like a rocket so it came down like a stick. The bubble was pricked and collapsed. The cold, searching criticism of men who had refused to lose their senses at the instance of the boomers was more potent than the latter's wild enthusiasm.

The nationality cry was carried too far. Sensible men became disgusted, and even the Norwegians themselves, upon whose support the whole fabric of the Nelson boom was built, held meetings and denounced the statement that they would desert the Alliance party to vote for Nelson. They resented the claim that they are Scandinavians first and by their resolutions they proved that they were truer, better and more loyal Americans than the demagogues who were proclaiming Knute Nelson's availability. This was a deadly blow at the demagogic boomers, and they felt it at once. The ground was taken from under their feet and they and their little boom sank out of sight. A few stragglers are still found preaching the old doctrine of Nelson's availability, but they cut but a small figure these days. These men have yet to learn that the "nationality" business is played out and that men will henceforth be judged according to their intrinsic merits as American citizens.

## FACTS THAT ARE TALENT.

The vested proprietor of the News adds to his other and numerous accomplishments that of supreme egotism. He is likewise the owner of those very necessary adjuncts for conducting a morning paper in Duluth, check and the ability to juggle figures. These characteristics of the vested proprietor afford ample explanation of the half column of self-glorification in this morning's News, and at the same time show how very little credence can be given to the statements contained therein.

There is no necessity for The Herald to enter into any disputation concerning the amount of advertising patronage bestowed upon the Duluth papers. The facts speak daily for themselves and they talk more potently and more effectively than anything that can be said in these columns or by the vested proprietor. The Herald is the largest paper in Duluth. The News and Tribune are each seven columns in width, while The Herald publishes an eight-column paper five days in the week and on Saturdays increases its size to eight pages of either six or seven columns in width. The Herald is compelled to publish a larger paper than those published by the News and the Tribune because of the pressure of advertising. And this pressure is not caused by the publication of "fake wants" or "dead legends" which the News runs almost daily to fill space and make a showing alongside The Herald.

Now as to circulation. The Herald has claimed the largest circulation in Duluth. The very figures cited by the vested proprietor today sustain this claim. According to these figures, the News printed 4,000 copies yesterday.

Accepting this statement as true, it shows that the normal circulation of the News is only 2,000 copies daily, because a representative of that paper was endeavoring to secure advertising for the Sunday paper on the ground that 2,000 extra copies were to be printed, the extra number being ordered by parties who are interested in the new town of Iron River, Wis., which was the subject of a lively article in that issue.

The vested proprietor states that the Sunday Tribune printed 1,600 copies. Consequently the combined regular circulation of the News and Tribune on Sunday was 3,600 copies, and that is probably 300 in excess of their combined circulation on other days. The number of copies printed by The Herald on Saturday, April 30, was 3,350 (not 3,150 as stated by the News), and there has been very little variation from these figures during the past ten days. Consequently it will be seen that not only has The Herald a larger circulation than that of any other Duluth paper but that the circulation of The Herald is equal to the combined circulation of the News and the Tribune. The subscription books, the sales at the news stands and the stories of the newsboys will all sustain these facts.

An article from the New York Financialer on Duluth as the coming iron center of the world is published in this issue. It will bear careful perusal. The facts and figures which it contains show how the great discoveries on the Mesaba iron range are regarded by the financial world.

The Globe objects to Col. Wright being elected mayor of St. Paul because he might close the saloons on Sunday. Of course such action might be rough on the Democratic organ's force, but at the same time it would elevate St. Paul's moral tone, which is sadly in need of elevation.

The fire in Winnipeg yesterday, while causing great loss of property, performed one benefit to the community. It removed the old fire-trap which did duty for an opera house. Now Winnipeg will probably secure a first-class theater.

The bill allowing the naval officers of the Charleston to accept decorations of knighthood from the Hawaiian government should be thrown out of congress. We want no knights here.

Men should be chosen to public office on grounds of ability and fitness, and not on account of their birth place.

Prices Were Up.  
An old restaurant bill, printed in Richmond in January, 1880, gives the following war-time prices in confederate money: Soup, \$1.50; chicken, \$3.50; roast beef, \$3; ham and eggs, \$3; raw system, \$2; coffee, \$2; bread and butter, \$1.50; a bottle of champagne, \$50; a drink of rye whiskey, \$2; a bottle of ale, \$1.50; and a cigar, \$5.

THE COMING IRON CENTER.  
Causes That Will Make Duluth the Iron Center of the World.  
(New York Financialer.)

Recent events point to that queen of the lakes as the coming iron center of the world. The causes that have made Duluth a winning candidate for this honor are several fold. She has her own Minnesota hills and within fifty miles of her furnace doors, the most extensive deposits of the highest grade ore in the world. She has coal and coke as cheap as Chicago, and she is situated at the extreme western limit of lake navigation. She is the natural distributing point for all supplies going to the vast empire West and Northwest, and being the primary market for 50,000,000 bushels of wheat annually, can afford cheap return freights to the interior, where is found the greatest demand for iron in railroad developments. It can be demonstrated that because of her proximity to the iron mines and the consequent saving of freights, steel rails can be manufactured in Duluth nearly or quite \$5 a ton cheaper than in Chicago, and practical iron men have discovered this fact. Already one blast furnace is making a thousand tons of pig iron a week, and an extensive steel plant has just been erected there. These are but the beginning of a vast industry which within the next five years will double the population of the Zenith city.

The Vermilion range north of Duluth has been shipping ore for eight years, its total output to the close of navigation last fall being 4,020,103 tons, of which \$85,512 tons were shipped last year. The Mesaba range, which is just now attracting world-wide attention among iron men, will begin shipping ore from several mines toward the close of the present season, the necessary railroads being now under construction. It is believed that the Mesaba output will be greater than that of the Vermilion. Present developments in the Mesaba extend about 100 miles along the range, while it is not impossible that rich discoveries may yet be found in the unsurveyed portions. The ore is a soft hematite, many assays of which show it to be of a Bessemer grade, and lies in beds usually five or ten feet below the surface. These beds are from forty to eighty feet in thickness, 300 or 400 feet wide, and of indefinite length. The ore can be mined and put on the cars at an average cost of 75 cents a ton, and another 75 cents a ton freight will lay it down in Duluth. Most of the properties are held as state leases, a royalty of 25 cents a ton being paid on the output. These figures are liberal, and yet by them it will be seen that when the mine owner gets to Duluth with his ore it has cost him but \$1.75 per ton. The lake freights to Lake Erie ports are about \$1.25 per ton, besides insurance and other incidental expenses. Thus there will be a handsome profit on ores in Duluth at their actual cost in Cleveland or Pittsburgh. As a result of this cheapness of iron ore in Duluth and the great advantage that city holds over all Eastern points, the future iron manufacturing center seems as surely destined to move to the headwaters of the Great Lakes as the star of empire is to become fixed in the West. And with a deep water-way to the sea Duluth may yet ship her fabrics to every country on the globe.

## BOOKS AND MAGAZINES.

Unfortunately accidents will happen do what one may to prevent them. "A Human Document," published in Cassell's Sunshine Series was bound and put into circulation before it was discovered that the eight last chapters had been omitted. The Cassell Publishing company at once set to work to make the amended honorable, which was to put a new edition of the completed story on the press and announce that they will furnish the missing chapters to all who have bought the incomplete edition, or will exchange for the complete book. This means considerable expense to the publishers, for the book has had a very large sale.

"Baby" is the name of a new and rather original publication. It is a journal for mothers, and from the valuable information contained therein, none can help but rejoice to have it as a regular visitor. The articles are short and to the point, and full of who'some meat.

Among the political portraits in the May number of the Review of Reviews are some good pictures of Secretaries Noble and Rusk, Senator Aldrich, Mr. Frederick R. Coudert of New York, Messrs. Chapin and Matthews of the English Cabinet, Sir William Harcourt the English Liberal, Messrs. Folke, Weaver and Donnelly of the People's party, Count Eulenberg the new Prussian Premier, Loubet the new Prime Minister of France, and general portraits of Mr. Gladstone in connection with the great character sketch of the grand old man, President Andrew Johnson, University General Horace Porter, the late Edward A. Freeman, a group of New York gentlemen connected with the College for the Training of Teachers, Miss Kate Field, Mrs. Humphrey Ward, Mr. Whistler the artist, Andrew Lang the critic, and various other well-known people, are included in the Review's portrait gallery for May.

The May Century is remarkable for the beginning of a new volume and of three new series, namely—the life of Columbus, by the distinguished Spanish orator and statesman, Emilio Castelar, who, in his first paper, considers the age in which Columbus lived; "The Chosen Valley," a novel of Western life, the irrigation fields, by Mary Hallock Foote, illustrated by the author; and the architect Van Brunt's semi-official and fully illustrated papers on "Architecture at the World's Columbian Exposition," in which Columbus is the central figure. The contents of this number is quite remarkable in its list of prominent names. In the way of short stories there are two very interesting ones, namely—one by Voltaire laistret, posthumously printed, called "Captain, My Captain!" a story of the town which is the rival of Topaz in "The Nauvauka," and the other "A Gray Jacket," by Thomas Nelson Page. Few pictures so charming have been published in the series of Old Masters as that by Luini in this number.

The Cosmopolitan begins its thirteenth volume May issue, under the joint editorship of Mr. W. D. Howells and Mr. Walker, with a table of contents which will attract attention. James Russell Lowell, Frank K. Stockton, Theodore Roosevelt, Edmund Clarence Stedman, Henry James, Professor H. H. Boyesen, Hamilton Carhart, John Hay, Sarah Jewett, Professor Langley of the Smithsonian, Thomas Wentworth Higginson and W. D. Howells himself are among the contributors. The illustrations in this issue are by such well-known artists as E. W. Kemble, Frederic Remington, F. C. Church, Walter Crane, William M. Chase, C. S. Reinhart, Dan Beard, George Wharton Edwards, Wilson de Meza, etc.

Outing for May opens with a cycling article "By Wheel From Havre to Paris," in which the author gives a pleasant description of a charming route. A number of clever drawings by the author and Hy. S. Watson embellish the article. The number is a strong one throughout.

The Magazine of American History for May appears, as usual, on time with an attractive table of contents. This bright and welcome periodical never fails to bring something new and interesting, and is always at home with current thought and current affairs. It is a standard authority which no library, college, or school can afford to do without. Its notes, queries, replies, societies and book notices are in separate departments and of the first moment to students and readers. It is a magazine without any dull pages. Subscription price, \$5.00 a year. Published at 743 Broadway, New York.

Harper & Brothers announce the following books as nearly ready for publication: "The Letters of Samuel Johnson," edited by G. Birkbeck Hill; "A Voyage of Discovery," a novel of American society, by Hamilton Aide; "The Technique of Rest," by Anna C. Brackett; "The Heresy of Mcheteable Clark," by Annie May Sloan; and "Flynn's Hill Farm," a story for young people by Sophie Sweet. They also announce a new and revised edition of William Black's "In Silk Attire."

A timely and attractive feature in Harper's Weekly issued April 27 is a superbly illustrated article showing the progress of the work at the Columbian exposition at Chicago. The pictures accompanying the article are from drawings by Thulstrup, Graham and T. Dart Walker, and include a double-page illustration from the accepted plans of the new public library at Chicago. Among other noteworthy attractions in the same number of the Weekly, there is a view of the opera house at Omaha, the meeting place of the Methodist general conference in May, and the fifth of Richard Harding Davis' papers on "The West from a Car Window," giving an interesting account of ranch life in Texas, with illustrations by Remington.

About none of the magazines of this month seems there to be such a freshness of spirit time as the May Ladies' Home Journal goes out to its hundreds of thousands of readers laden with song, story, and a wealth of good material.

Fourteen Residences Outside of Kingfisher Destroyed and Crops Damaged by Hail.

A Family of Ten Entered a Dugout and their House was Torn to Atoms.

KINGFISHER, O.T., May 3.—A cyclone, gathering force in the southwest portion of Kingfisher last evening, created wild excitement and fear among the residents. A heavy rain storm began an hour before, quickly followed by immense hailstones. Windows were broken and men and animals knocked senseless. The loosely built board houses were deserted and women hid in cellars under unfinished buildings, half filled with water from the recent storm, but the cyclone turned to the south a half mile and just missed the town. The cyclone did great damage to growing crops, overturning houses in its path and killing considerable young stock, finally spending its force about fifteen miles distant. The only damage done in Kingfisher was to overturn small outbuildings and unroof two residences.

Fourteen residences outside the city were destroyed, and great damage done to crops by the hail. F. A. Bidwell, of York, Neb., and his son were killed by the cyclone. They were expecting the rest of the family to arrive yesterday. Simon Bates, a farmer, while riding was overtaken by the cyclone. He dismounted and held his horse by the bridle. The horse became frantic and wild, and would back up in the rope. Before he could extricate himself the horse was lifted from the earth and carried to the top of a tree. All escaped with bruises. George Rickert and his family of ten entered a dugout and the house was torn to atoms. A portion of the roof was hurled against the roof of the cave, crushing it in. All escaped with bruises.

## ANOTHER VILLAGE STRUCK

A Farmer Killed and Many People Injured.

TOPEKA, Kas., May 3.—A disastrous cyclone, destructive alike to life and property, last night struck the farming village of Tevis, a village on the Missouri Pacific road, ten miles southeast of Topeka.

A farmer named Plaxton was killed. John Heil was badly injured and did not recover. His child was also badly hurt. Buildings and fences on the farms of J. P. Heil, L. J. Gier, and Thos. Brooks were demolished. For a space of about two miles square farmers suffered severely.

Many people were more or less injured. A number of physicians have left Topeka for the scene.

## KILLED BY A TRAIN

Theo. T. Woodruff, Inventor of the Sleeping Car, Meets a Sudden End.

MILWAUKEE, Wis., May 3.—Theo. T. Woodruff, inventor of the sleeping car, and a close friend of Andrew Carnegie and Senator Sherman, was instantly killed yesterday by the Brighton express as he was crossing the tracks of the West. The body was found at Gloucester, N. J., where the train was wrecked. Mr. Woodruff was 81 years old, the inventor of the sleeping car and president of the Central Transportation company. Years ago Mr. Woodruff lived in the present abode of Senator Sherman at Mansfield, O., and was president of the First National bank in that city.

## HE WAS PUT IN IRONS.

Deeming, the Australian Murderer. Placed Under Restraint.

MELBOURNE, May 3.—The behavior of Deeming, since he was sentenced yesterday, has become more inexplicable than ever. There is a strange mixture of sense and insanity in all he says and does. He later even assumed the role of a jailer for that under the breaking down of all his hopes, Deeming may become actually mad and attempt suicide. It was therefore decided to put the prisoner in irons, and this resolution was carried into effect today.

## THEY ARE LEASED.

Leases of The Cincinnati, Hale and Other Mines Practically Closed.

The deals for the leasing of the Cincinnati and Kanawaba mines are practically closed, says the Kimberley syndicate of Sharon, Pa., represented by John T. Jones which will secure them. The Cincinnati lease is not closed, and the directors will meet tomorrow and will call a meeting of the stockholders to ratify the contract. A royalty of 60 cents a ton is to be received and the syndicate is to take out a minimum of 400,000 tons a year. The Kanawaba lease is in the same condition and a meeting of the stockholders ten days from yesterday is already called. There are to be 100,000 tons to be taken out of the Kanawaba yearly and the royalty is 80 cents.

The lease of four forties of the Rouchelle property in section 3, 58-16 just south of and adjoining the Biwabik mine has already been made at 50 cents. The minimum output is to be 20,000. The Hale mine will probably be leased to the same syndicate and within a very few days.

## AGENTS WILL LIST.

The Real Estate Exchange Adopts Mr. Barthoff's Plan of Listing.

The Real Estate Exchange decided yesterday to adopt the plan of listing presented by J. C. Barthoff, and which is now in operation in Milwaukee. Four forms for listing property, one for improved city property, one for acreage and one for mineral rights, will be printed and distributed to agents and these are used to send in the listings to the exchange. All property listed will be parties to a listing exclusively for him to sell. Listings will be sent out by the secretary once a week. Rates' list leg was fractured and the exchange, which is a listing system has been operating for some time all the property for sale in the city. Another benefit of the exchange blackboard is that it will prevent the division of commissions among a half dozen agents. Only two agents will be parties to a listing. It will probably take three or four weeks to get the exchange in proper operation.

## A BULLET IN HIS NECK.

Shooting Affray at Tower, Which May End Fatally.

There was quite an exciting shooting affray at Tower on Sunday morning. A. R. Palmer (colored) and Clark Winchell, a switchman, met at 7 o'clock and exchanged compliments with 38-caliber revolvers. Palmer's weapons missed fire, but his adversary's responded and Palmer has a bullet lodged in his neck, with his recovery doubtful. The affair grew out of an antipathy for Palmer, he having been given rooms at a boarding house from which Neil Bowie, a friend of Winchell's had been fired recently.

## Palmer had received notice signed "Whitecaps" ordering him to leave town.

and on the other hand Palmer had threatened Winchell and Bowie, whom he suspected were his enemies and persecutors. A young girl is also said to be slightly mixed up in the affair. Scott Straws, also colored, met Bowie Sunday afternoon and gave him a thrashing.

## WANTS ITS RIGHTS

The Minnesota Point Street Railway Claims an Exclusive Franchise Covering all Streets.

## It Will Maintain Its Rights in the Courts Against any and all Railroads.

Injunction Papers are Served on the City and the New Terminal Railroads.

Directly after the passage of the Red Lake Falls ordinance by the council last evening, a summons and complaint were served on President Hugo by the Minnesota Point Street Railway company asking the city to show cause why an injunction should not be issued restraining it, or the Red Lake Falls & Northern, Duluth & Northeastern Railway and Terminal roads from interfering with the rights of the Street Railway company on Minnesota Point. These rights were said to be the exclusive privilege of laying railway tracks on Minnesota avenue and Lake avenue, and it was generally supposed that the application of the Duluth & Northeastern Railway and Terminal company for the right to lay tracks on Minnesota avenue had provoked the injunction.

The street railway company, however, insists that its rights do not end there, and if the claims can be sustained, another complication

## IT IS FINALLY PASSED

The Duluth, Red Lake Falls and Northern Railway Company has adopted the bill for the construction of the line.

The Duluth Gas & Water Company has submitted a plan for the construction of the line.

The Evening Herald is designated the official paper of the city for the purpose of publishing the city ordinances.

The council last evening finally passed the Duluth, Red Lake Falls and Northern Railway bill. The bill was passed by a vote of 10 to 2. The council also passed a resolution to purchase the Duluth, Red Lake Falls and Northern Railway line.

A resolution asking the Duluth and Northern Railway to make a proposition to the city for the construction of the line. The resolution was passed by a vote of 10 to 2.

Some time ago the Duluth Gas and Water Company was asked to make a proposition for furnishing water from the reservoir to the inhabitants above the water supply. The company has now agreed to furnish water outside said limits or interfere with the company in any way.

The Duluth Evening Herald was made the official paper of the city for the ensuing year. The finance committee reported that it was unable to decide between the three bids and wanted it referred to the council as a committee of the whole.

ronto, Montreal and the Canadian east. It is pretty evident that the new line was projected primarily for the purpose of carrying, but it is not improbable that it will make a bid for passenger business as well, via the Iron Range and Duluth.

G. G. Cook, formerly with the Great Northern engineer corps, who has been in the city for a couple of days, left with a picked party of fifteen men, who arrived from the twin cities this morning, for Grand Marais on the Barker. They were evidently not desirous of attracting notice for they kept out of sight as much as possible. They had a large lot of surveyors' outfit with them. They have undoubtedly gone up to survey the line of the Port Arthur, Duluth & Western railway.

## AMUSEMENTS.

"Priscilla" Tonight. The Duluth amateurs who appear in opera this evening at the Lyceum will be greeted by a large audience. The name, "Priscilla," or the Pilgrim's Progress, is a play which is the latest of the great variety of sentimental and is brought to the stage by a refreshing contrast to many of the cheap products thrust upon the public. The "funny business" of the play is characterized by great purity of sentiment, and at the same time, it is a clever sketch of the fashionable life of old furniture. The chorus girls wear pretty old time costumes, with nautical caps and kerchiefs, in pleasing contrast to the primitive uniforms of the woodmen-soldiers, and the Puritan cloaks of pompous Governor Bradford and John Alden.

The Minstrels Tonight. Gorton's Minstrels appear at the Temple this evening and will have a big house. The company is one of the few that does not rely upon its costuming and stage setting for its attractions, but is full of true minstrelsy and fun. The music, instrumental and vocal, is far above the average. In the second part will be a number of decided novelties, which will include "The March of the White Hussars," in gorgeous costumes of white and gold, and "The Mazurka Clog," a new and original dance.

The Swedish Ladies. The concert by the Swedish Ladies Friday evening at the Temple will be one of the finest vocal and instrumental ever heard in the city. Of their singing the Hamilton, Ont., Herald says: "Such fresh, accurate and tuneful singing by a quartet of ladies has never been heard in Hamilton before. The varied and intricate harmonies in several numbers were sung with the greatest ease, and the glowing, graceful music fell upon the ears of the listeners, entrancing them so much that their delight was shown in encores and double encores."

Prominent Minneapolis men are interested in the venture. The "promoter" of the line was James Connors, one of the heaviest railroad contractors in Canada. As a result of his little pilgrimage to the Minnesota metropolis, the Port Arthur, Duluth & Western Railway of Minnesota is already projected on paper, and active building will begin one week from today. The corporators of the line are James Connors, of Port Arthur; John Paulson, of Duluth, ex-president of the State Bank of Minneapolis; K. K. Kordgard, city treasurer of Minneapolis; Matt Walsh, the well-known Democratic politician; Louis A. Reed, chairman of the Republican committee, and Freeman P. Lane, the well-known Republican attorney.

The Port Arthur, Duluth & Western Railway of Canada, was built for the purpose of tapping the iron country in northwestern Ontario, and now runs to within four and a half miles of the international boundary line. Next Monday morning the American company begins throwing dirt on the American side of the imaginary line which separates the American from the British possessions, and within ninety days it is the intention to build five miles of track in the direction of Ely. It is to be a line for the purpose of tapping the iron country, and it will be very easy to run through to Ely.

In that event another through line will be established from Minneapolis, St. Paul, Duluth and the Northwest to Toronto, Montreal and the Canadian east.

It is pretty evident that the new line was projected primarily for the purpose of carrying, but it is not improbable that it will make a bid for passenger business as well, via the Iron Range and Duluth.

G. G. Cook, formerly with the Great Northern engineer corps, who has been in the city for a couple of days, left with a picked party of fifteen men, who arrived from the twin cities this morning, for Grand Marais on the Barker. They were evidently not desirous of attracting notice for they kept out of sight as much as possible. They had a large lot of surveyors' outfit with them. They have undoubtedly gone up to survey the line of the Port Arthur, Duluth & Western railway.

AMUSEMENTS.

"Priscilla" Tonight.

The Duluth amateurs who appear in opera this evening at the Lyceum will be greeted by a large audience.

The name, "Priscilla," or the Pilgrim's Progress, is a play which is the latest of the great variety of sentimental and is brought to the stage by a refreshing contrast to many of the cheap products thrust upon the public.

The "funny business" of the play is characterized by great purity of sentiment, and at the same time, it is a clever sketch of the fashionable life of old furniture.

The chorus girls wear pretty old time costumes, with nautical caps and kerchiefs, in pleasing contrast to the primitive uniforms of the woodmen-soldiers, and the Puritan cloaks of pompous Governor Bradford and John Alden.

The Minstrels Tonight.

Gorton's Minstrels appear at the Temple this evening and will have a big house.

The company is one of the few that does not rely upon its costuming and stage setting for its attractions, but is full of true minstrelsy and fun.

The music, instrumental and vocal, is far above the average.

In the second part will be a number of decided novelties, which will include "The March of the White Hussars," in gorgeous costumes of white and gold, and "The Mazurka Clog," a new and original dance.

The Swedish Ladies.

The concert by the Swedish Ladies Friday evening at the Temple will be one of the finest vocal and instrumental ever heard in the city.

Of their singing the Hamilton, Ont., Herald says: "Such fresh, accurate and tuneful singing by a quartet of ladies has never been heard in Hamilton before.

The varied and intricate harmonies in several numbers were sung with the greatest ease, and the glowing, graceful music fell upon the ears of the listeners, entrancing them so much that their delight was shown in encores and double encores."

## IS RADICALLY REVISED

Some Changes Made in the Duluth & Northern Railway & Terminal Company's Ordinance.

The City is to Build and Own the Tunnel and the Road Pay Half of the Cost.

The Terms on Which Other Companies May Use the Tracks are Fixed More Definitely.

The ordinance of the Duluth & Northern Terminal and Railway company or the Sargent scheme as it is more familiarly known, was considered by the council in executive session yesterday and some radical changes made, in fact the revised ordinance will hardly be recognized when it is presented next Monday evening. This is no more than was expected by the promoters themselves. Mr. Cash said yesterday at the terminal meeting when the provisions of his company's ordinance were so severely criticized, that it was necessary to present something and then let the aldermen amend to meet their ideas. Mr. Sargent, he said, could not have been expected to go to the city officials and have his ordinance drawn up.

One of the most radical and important changes made is in reference to the tunnel. The ordinance provided that the railway company should build a tunnel, the city to pay out-half the cost. This is amended to read that the road shall pay one-half the cost of a tunnel which the city shall build. This is quite a change, as it leaves the ownership of the canal with the city, whereas with the other provision the railway company would own it. The company is further required to keep the tunnel in repair and operation. Another revision is in reference to South street. This was also made jointly. This probably adjusts the South street difficulty amicably. The ordinance also gave the company the right to run along Minnesota avenue, this has been changed to St. Louis avenue and the company is given one-half of the street. The Red Lake has the other half. This will also meet the objection of the Minnesota Point Street Railway company, which protested vigorously against allowing any company to lay tracks on Minnesota avenue.

The most important change made is in the conditions upon which other roads are to be allowed to use the company's tracks. The original ordinance provides that a reasonable rate shall be charged, based on that paid in cities of 10,000 inhabitants, taking into account also the cost of the road. This is taken out bodily and the same provision inserted that in the Red Lake Falls ordinance. Any road is entitled to use the tracks of the company by paying its proportionate share of a 6 per cent interest charge on the cost of the tracks determined by the books of the company or failing then by arbitration.

There will be a number of other changes, but these are the most radical. The council will probably meet again before next Monday as a committee of the whole and give it further consideration and it will undoubtedly be put upon its passage at the next meeting.

South Shore Steamer Line.

On and after Friday, May 6th, the steamer Barker will make regular trips between Duluth and Ashland, stopping at all towns along the south shore and any point passengers may wish to reach as follows: Leave Duluth at 8 a. m. on Mondays, Wednesdays and Fridays, stopping at Tower street, West Superior, Connor's Point and Old Superior on the way out. Leave Ashland on Tuesdays, Thursdays and Saturdays. Passengers and freight will be carried to all the above points.

Persons who suffer from defective vision or eye troubles, are apt to look upon theirs as an isolated case, unlike all others, and without a remedy. Especially is this the case if they have passed through the hands of a few specialists without getting relief. It should be borne in mind, however, that the science is advancing every day. New appliances are continually coming to light which make it possible to handle with perfect ease and accuracy, troubles which short time ago would have puzzled the most expert operator. As J. H. Ostrander, the expert optician, examines the eye free of charge, you will lose nothing and may gain much by seeing him. With F. D. Day, jeweler, Duluth.

RICINATE FIRE PROOFING CO. OF NEW YORK.

Gentlemen—I witnessed very severe tests of the patent fire-proofing offered by your company. Its power of resisting fire is certainly very wonderful, and considering that it is so easily and cheaply applied to everything that is combustible, whether wood or textile fabric, I deem it exceedingly valuable. I can recommend its use by the government on everything in our Naval Construction where there is risk of fire.

There is not a dwelling in this city that cannot be made safe or secure from fire—the finest places cannot be made to burn.

Very truly yours

AMMONIA AND SUICIDES.

One of the Most Certain Agents for Causing Death by Slow Poisoning.

[New York Sun.]

Of the number of those seeking suicide by swallowing some form of poison, probably there are few who have sought to kill themselves by means of ammonia. Nevertheless, ammonia, although it is the active agent in most of the salts sold to women for their gills decorated and perfumed scent bottles, is poisonous when taken internally in concentrated form. To attest this there have been recently in New York cases, the most recent being that of Harowitz, of which Deputy Coroner Jenkins said that death took place in a comparatively short time after the ammonia was taken. In another case, that of a child, Dr. Jenkins said death resulted in five minutes after swallowing the ammonia solution.

There are on record also cases of slow poisoning from ammonia administered with intent to commit murder. Furthermore, the appearance of workmen in guano factories, where ammonia is set free by grinding guano, has been noted, and in every case there is an unmistakable system of poisoning. This is discoloration of the white of the face, which assumes a blotched, dirty appearance. First to take on this appearance is the skin of the nose and around the eyes. Those who die from ammonia poisoning reveal a dark hue on the mucous membrane lining the stomach and intestines.

As an agent for causing death by slow poisoning, ammonia is one of the most certain and most difficult of detection, owing to its volatile nature. This quality has led physicians to believe that some of the mysterious deaths, and without cause in the history of modern and medieval crime are due to ammonia. It is known now that almost all cases of poisoning between the first symptoms of sickness and the death of a person from ammonia poisoning, has resulted in four minutes from the time a large draught of ammonia has been swallowed. It has been found in cases of gradual absorption of ammonia in the human system that there is a general elimination of healthy oxidation of the body's strength. In the cases of immediate poisoning, death comes with frightful agony, as in the case of Harowitz. Blood gushed from his nose and mouth.

Statistics in England put ammonia thirteenth in frequency in the list of poisons. Alexander Winter Blyth, medical officer of health in the St. Marylebone district, London, cites thirty cases of poisoning by ammonia, given for the purpose of committing suicide, or administered with the purpose of committing murder, or absorbed unconsciously in food. Of the suicidal cases six were fatal. Of twenty accidental cases twelve were fatal. Of cases of murder with ammonia, Dr. Blyth notes two, both of them children.

## The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.,  
May 4.—Generally fair weather prevails in all  
sections except Kansas, where rain is falling.  
Rain and snow have fallen in nearly all sec-  
tions, especially over the lake. The temperature  
continues low in the North. The temperature  
is about the average in other parts of the  
country.

The snow fall here yesterday when melted  
amounted to 40 inch, the highest temperature  
during the day was 37°, but it rose during the  
night, and registered 41° at 7 o'clock this morn-  
ing.

DULUTH, May 4.—Local forecast for Duluth  
until 8 p. m. May 5: Fair; slight change in tem-  
perature.

B. H. BRONSON,  
Observer.  
WASHINGTON, May 4.—Forecast till 8 p. m.  
tomorrow: For Wisconsin, fair and clearing;  
slightly warmer; variable winds. For Minne-  
sota and North Dakota: Fair; warmer; winds  
becoming south.

## UTILIZATION OF SEWAGE.

The best manner of disposing of a  
city's sewage is an important question  
that confronts almost every community.  
This question has recently received the  
attention of a committee of the Massachusetts  
legislature, on a petition for a bill  
to establish a sewage farm in Brockton  
and contiguous territory, and some very  
interesting facts were developed in the  
course of the inquiry that was held. Peo-  
ple living in the vicinity of the proposed  
farm objected to the location, apprehend-  
ing a nuisance likely to depreciate the  
value of property, pollution of well water  
and the establishment of paludal influ-  
ences. To meet these objections natu-  
rally suggested by the name of sewage  
farm, evidence was presented in the  
form of photographs showing beautiful  
residences in Europe adjacent to sewage  
farms, and maps of villages and towns  
surrounded by land devoted to this use,  
and testimony to the effect that Berlin  
has established public workhouses and  
convalescent hospitals on the sewage  
farms of the city and the effluent of one  
on the north is discharged into the river  
Spree above the point where a water  
supply for the city is taken.

The model sewage farm exhibited at  
the Paris exhibition in 1878 was de-  
scribed as being located in a fashionable  
residential quarter of the city, near the  
Palais du Trocadero, on which fruits,  
vegetables and flowers were luxuriantly  
growing under sewage irrigation, and  
from the deep efficient drains, taps sup-  
plying cool, clear and sparkling water  
could be drawn, analyzing in purity  
equal to the best spring water, both by  
chemical and biological tests.

At a dinner given by the city of Paris  
to the members of the International  
Congress of Hygiene and Demography  
at Gruvevillers, a town of 12,000 inhabi-  
tants and surrounded on all sides by a  
sewage farm of the city, all the fruits  
and vegetables eaten were pro-  
duced on the farm, and the sub-  
water-drunk was taken from the  
sub-surface drains. Dr. Brouardel, dean  
of the medical faculty of Paris, presided  
and ordered the board sat such men as  
the chief engineer of the city, Mr. Bec-  
mann, Drs. Arnaud, Arnaud, Napier,  
Proust, Martin of Paris, Drysdale, Mur-  
phy, Corfield and Sir Douglas Galton of  
London, Paccioti of Turin, and over  
four hundred other men representing  
the sanitary science of all parts of the  
world. At Rheims the dinner table was  
spread in the open air on a sewage farm  
in full operation, and not the slightest  
annoyance was experienced even by the  
ladies who were present. As a matter of  
fact, a well conducted sewage farm is  
more free from offence than farms en-  
riched by the ordinary processes of fer-  
tilization.

At the last meeting of the International  
Congress of Hygiene, etc., at London, this  
resolution was unanimously passed:  
"In the opinion of this meeting, the best  
yet known method of disposing of the  
sewage of towns is that of purification  
and utilization on the land." The Mas-  
sachusetts state board of health has con-  
firmed by experiment the possibility of  
purification by soil treatment, and no  
one familiar with the subject will today  
claim that this is possible by any other  
method of treatment. It is just possible  
that Duluth may find it advisable in  
future years to adopt some different  
mode of disposing of the sewage of the  
city than that which now exists. The  
increase in population all around the  
head of the lake, with a consequent in-  
crease in the amount of sewage, will in-  
crease the danger of pouring the sewage  
into the lake.

## THE SCHOOL PROBLEM.

The announcement from Rome that  
the pope has confirmed the decision of  
the propaganda in favor of the plan ad-  
vocated by Archbishop Ireland, of al-  
lowing American Catholic schools to be  
taught by state teachers, religious in-  
structions to be given after school hours,  
the object being to relieve Catholics of the  
burden of the expense of separate  
schools, shows what great influence Arch-  
bishop Ireland has obtained at the Vati-  
can. The adoption of the Sullivan and  
Farhaul plan of merging the parochial  
schools into the public school system was  
a very radical move on the part of a  
Roman Catholic prelate, and many peo-  
ple supposed that the archbishop's ap-  
proval would not be sanctioned at Rome.  
The results show, however, that Pope  
Leo is much more catholic than were  
many of his predecessors and that he is  
well informed on the conditions

which obtain in this country and the ne-  
cessity of the church adapting itself to  
those conditions. The manner  
in which he put a quietus on the Cahen-  
sley movement, which would have ten-  
ded to the perpetuation of distinct na-  
tionalities in this country, showed that  
he has a proper appreciation of the man-  
ner in which all nationalities are being  
assimilated here and a new and com-  
mon nationality, retaining the good  
features of the old and dispensing with  
the bad, is being built up on this side of  
the Atlantic.

Supported by a pope of such enlight-  
ened views, Archbishop Ireland can go  
forward in his work of settling the  
school problem for all time in this coun-  
try. It priests of other denominations  
will exercise sufficient tolerance and will  
not throw obstacles in the way of what  
is now merely an experiment, the solu-  
tion of the problem may be reached at  
an early date. There is no reason why  
Catholic and Protestant children should  
not sit side by side in every school in  
America.

## THE GANG DOWNED.

The city election in St. Paul yesterday  
was a Waterloo for "the city hall gang."  
Col. Fred. P. Wright, the candidate for  
mayor on the Republican and Citizens  
party, has been elected by a large ma-  
jority over Robert A. Smith, the present  
mayor and the Democratic nominee.  
This result was brought about by the ac-  
tion of a large section of the Democratic  
party in St. Paul who had grown tired of  
the methods of the corrupt gang that  
has been in charge of the city govern-  
ment for many years, past and who had  
become disgusted with the wanton and  
shameless conduct of the members of  
the gang in regard to morality and de-  
cency.

Things had come to such a pass that  
the city was virtually run by the dis-  
reputable and vicious classes, with the  
result that the laws were broken with  
impunity and little pretense was made to  
enforce them. The business of the city  
has also been grossly mismanaged, a  
huge city debt has been piled up, and  
the taxes have become oppressive. The  
Democrats themselves saw the necessity  
for a change, but as usual the gang car-  
ried the primaries and put its candi-  
dates in nomination. The result was  
that a large number of Democrats de-  
cided that the only way of relieving the  
city from the odious control of this  
second Tammany Hall lay in the defeat  
of the gang ticket and the election of  
Republicans and Independents pledged  
to reform the abuses that have existed  
and to clean out the ward heelers and  
parasites that have filled the offices in  
the city. There was also a general de-  
mand on the part of the people that the  
books of the city should be open for in-  
spection, and that could only be ob-  
tained by the election of a new comptrol-  
ler and treasurer. The Republicans  
wisely chose candidates who were above  
reproach. They were for the most part  
business men of standing and well known  
integrity, and with the aid of the respect-  
able Democrats and the large number  
of citizens who are not tied to either  
political party, the Republicans scored a  
splendid victory.

The defeat of the city hall ring is the  
best thing that ever happened to the  
Democratic party in St. Paul. It has  
purged the party of a festering mass of  
corruption, indecency and immorality,  
and if the party will now see that it is  
freed permanently from the control of this  
disreputable element the party will be  
strengthened for future campaigns.  
Deprived of its hold on the offices, the  
gang should be easily wiped out of exis-  
tence altogether by the party itself.

A bill to reduce postage from 2 to 1  
cent an ounce is now before the house  
committee on postoffices. Postmaster  
General Wanamaker has estimated that  
the proposed change would result in a  
loss of over \$22,000,000. It is not likely  
that any increased business occasioned  
by the reduction in price would make up  
this loss. As there is no general de-  
mand for the change, it does not seem  
advisable to make it at this time.

Senator Daugherty has secured the  
endorsement of the Sixth district con-  
vention for delegate-at-large to the Re-  
publican National convention, which will  
strengthen him greatly in the state con-  
vention tomorrow.

The first electric car ever seen in  
South America was run in Panama last  
Wednesday. Another incentive to revolu-  
tion has thus been furnished to the  
southern half of the continent.

The Globe appealed to the voters to  
"stand by old St. Paul," but it was a new  
St. Paul that the citizens wanted.

The gang got a black eye at St. Paul  
yesterday. Democrats joined with Re-  
publicans in administering it.

May.  
[Nora Perry in St. Nicholas]  
Oh, whom do you think I saw today,  
Oh, whom do you think I met,  
As I came over the woodland way  
In all the April wet?

A little child, a little maid,  
Whose face was like a flower,  
Boys of Duluth eyes upon me fixed  
Through wind and cloud and shower.

She looked at me, she laughed at me;  
Then turned and laughing fled,  
I looked at her, and laughed to see  
How fast her footsteps sped.

And then I called, "Come back! Come back!  
Come tell me what's your name,  
And what you've sworn along your track,  
And whence my dear, old home."

At this she only laughed the more  
And shook her flowery dress,  
And said or sung, as she chose,  
"My name, my name! now guess!"

And as she thus did sing or say,  
She swung her tiny feet  
And sang or sung, as she chose,  
The little maid called May.

And then I knew the lovely thing,  
And guessed her name straightway;  
She was the darling child of Spring,  
The little maid called May.

Celery Compound.

What Scientific Research  
Accomplished.

Proved by Success Where All Else  
Has Failed.

There is one true specific for diseases  
arising from a debilitated nervous sys-  
tem, and that is the Paine's celery com-  
pound so generally prescribed by phy-  
sicians. It is probably the most remark-  
able remedy that the scientific research

of this country has produced. Professor  
Edward J. Phelps, M. D., L. L. D., of Dart-  
mouth college, first prescribed what is  
now known the world over as Paine's celery  
compound, a positive cure for dyspepsia,  
biliousness, liver complaint, neuralgia, rheu-  
matism and kidney troubles. For the latter Paine's celery  
compound has succeeded again and again  
where everything else has failed.

Washington correspondents have re-  
cently given it a great deal of attention  
since the most wonderful cure effected  
in the case of Commodore Howell.

The medical journals of the country  
have given more space in the last few  
years to the many remarkable cases  
where the use of Paine's celery compound  
has made people well than to any other  
substance.

Deer Park and Oakland.

To those contemplating during the  
coming summer a trip to the mountains  
in search of health or pleasure, Deer  
Park, on the dome of the Alleghany  
mountains, 3000 feet above the sea level,  
offers such varied attractions as a de-  
lightful atmosphere during both day and  
night, pure water, smooth, winding roads  
through the mountains and valleys, and  
the most picturesque scenery in the Al-  
leghany range. The hotel is equipped  
with such adjuncts conducive to the en-  
tertainment, pleasure and comfort of its  
guests, as Turkish and Russian baths,  
swimming pools for both ladies and gen-  
tlemen, billiard rooms, superbly fur-  
nished parlors, and rooms single or en  
suite, an unexcelled cuisine and superior  
service.

The surrounding grounds as well as  
the hotel are lighted with electricity  
have cosy and shady nooks, meandering  
walks, lawn tennis courts and grassy  
playgrounds for children within full  
view of the inviting verandas. Six  
miles distant on the same moun-  
tain summit is Oakland, the twin  
resort of Deer Park and equally  
as well equipped for the entertainment  
and accommodation of its guests.  
Both hotels are upon the main line of  
the Baltimore & Ohio railroad, the  
advantage of its splendid vestibuled  
landed express trains between the East  
and West, and are, therefore, readily ac-  
cessible from all parts of the country.  
Season excursion tickets, good for re-  
turn passage until Oct. 31, will be placed  
on sale at greatly reduced rates at all  
principal ticket offices throughout the  
country. One way tickets reading from  
St. Louis, Louisville, Cincinnati, Colum-  
bus, Chicago and any point on the N. E.  
O. system to Washington, Baltimore,  
Philadelphia or New York, vice versa,  
are good to stop off at either Deer Park  
or Oakland, and the time limited will be  
extended by agents at either resort upon  
application.

The season at these popular resorts  
commences June 22.

## REASONS WHY Dr. Price's Cream Baking Powder Is The Best.

FIRSTLY.—It is the oldest Cream of Tartar Baking Powder in the world, and has stood the test of 40 years.

SECONDLY.—Its makers have never succumbed to the temptation to introduce ammonia or alum in their goods, for the purpose of cheapening the cost.

THIRDLY.—It is made from the purest Cream of Tartar, refined in the immense plant at Jersey City controlled by this company, by patented processes used by no other refiner.

FOURTHLY.—The governments of the United States and Canada have endorsed Dr. Price's Cream Baking Powder after thorough examination, as have also the heads of our great universities, prominent physicians, boards of health and the public. It is used in the United States Army and Navy and in the cuisines of the most select clubs, hotels and private families.

FIFTHLY.—It is just what it is represented to be, viz: a pure Cream of Tartar powder and can stand on its record without any bolstering up by means of fraudulent certificates, or resorting to any other tricks practised—sometimes successfully—by other makers of so-called "absolutely pure" powders.

### THAT POINT ORDINANCE

The Provisions of the Minnesota Point Street Railway Company's Exclusive Franchise.

Nothing is said of an Exclusive Right to Carry Freight on the Streets of the Point.

The Duluth & Northeastern Railway & Terminal Company Triled to Buy the Franchise.

Since the publication in yesterday's Herald of the real status of the objections of the Minnesota Point Railway company to the Point terminal schemes, a number of people have been searching the city charter and ordinances to find the ordinance under which the company operates. It is not published, however, but in the complaint in its injunction case the company copies the ordinance in full. It was granted by the village of Point on June 23, 1887, and gives the exclusive right to build and operate a single or double track on any of the streets, avenues or alleys which were then platted or would afterwards be platted. This company was to have completed and in operation within eighteen months after the passage of the ordinance, one mile of track. The cars are required to make at least hourly trips until 9:30 o'clock. The ordinance further specifies what manner of car shall be used in transporting passengers. The life of the contract is fifty years.

The company claims that its exclusive rights over the streets are for the carriage of both passengers and freight, but the ordinance says nothing which may operate as a bar to the operation of the street car line in the future. The line must be operated every day of the year, if only defines the hours between which trips must be made during the day. The inference is plain, but what the court would say is a different matter. The line has been continuously operated. During this spring there was a month or more when no cars were running.

The company's complaint further says that the Duluth & Northeastern Railway and Terminal company tried to purchase the street railway company's exclusive rights, but that the deal failed.

**The Proof of the Pudding is in Chewing the String.**  
The above is an old and much-quoted saying. The same idea is involved in the words in any of the following:

The proof that no one need go without the choicest cuts of beef is to see and try it.

The proof that Thomas K. Hicks handles only the best of beef is shown by the freight receipts that he receives from Iowa.

The proof that Thomas K. Hicks has the largest refrigerator and cooling room in the West is to call in and see it.

The proof that no one need go without meat is found in the fact that Thomas K. Hicks sells forty pounds of good, fresh meat for all your meat of Thomas K. Hicks.

The proof that you can secure any and all the delicacies in the meat line in Duluth is to leave your order at the cash meat market of Thomas K. Hicks.

The proof that you can save money is to buy all your meat of Thomas K. Hicks.

The proof that we sell the very best beef, poultry and pork at prices many obtain for inferior quality is to come and see us and compare our meats and prices with others.

The publishers of Duluth Data are owing to stronger cables indicating a far better foreign demand and continued reports of bad weather in the Northwest, the market here opened stronger this morning, first sales in July being made at 1/4 advance over yesterday's close.

The market, however, was a dull and waiting one with little outside demand and with trading about equally divided between May and July. The immense amount of May transactions which are now being settled on the Duluth board are indicated by the fact that the checks paid by one bank in Duluth yesterday amounted to \$12,000,000 and by another to \$14,000,000. The close was dull at 1/4 higher than yesterday for following were the closing prices:

Gentlemen—I witnessed very severe tests of the patent fire-proofing owned by your company. This power of resisting fire is certainly very wonderful, and considering that it is so easily and cheaply applied to everything that is combustible, whether wood or metal, I deem it exceedingly valuable. I can recommend its use by the government on everything in our Naval Construction where there is risk of fire.

There is not a dwelling in this city that cannot be made safe or secure from any fire—the finest houses cannot be made to burn.

## PREVENTED A TRAGEDY

A Husband Tries to Shoot His Wife in the Union Depot Yesterday Afternoon.

The Intervention of Two Men at the Proper Moment Prevents a Frightful Tragedy.

The Duluth Cycle Club's Annual Races—Thirty-Five Cyclists Competing—On Memorial Day.

The timely presence of Chief of Police John Kenna, of Lakeside, and Charles Jones, the caller, prevented what might have been a frightful tragedy at the Union depot yesterday afternoon. About 4 o'clock passers by the entrance door to the women's waiting room noticed a rather gentlemanly man and woman in earnest conversation. The couple grew somewhat louder in their speech and the lady turned as if to go into the woman's room, when the man shouted out, "Don't you stir; don't you dare stir!" This attracted the attention of Chief Kenna, of Lakeside, and Charles Jones, and they drew close to watch the outcome. It was hardly a moment later when the man in a very angry tone shouted "Then, by G—, I'll kill you right here; if you go away you'll go in with me!" and he drew a revolver and pointed it at the woman. The lady, however, did not flinch, and she was there between the madman and his intended victim. The lady appealed to the gentlemen for protection and at the same time asked that her husband be not arrested, but only kept away from doing her any injury. That time the husband heaved a sigh and said that he was going to go and he left the Union depot, vowing that he would kill the woman if he saw her. The lady, however, was not deterred but she went to the waiting room until Officer Robert Smollett arrived when under his guardship and one of the Union depot gentlemen who was "off" duty she went over to the Northwestern depot where she sought her husband. She remained there over night at Hotel St. Louis and left to go for her home. The names of the parties are withheld at the request of the lady but they both hail from Michigan. Her story is substantially as follows: "I have only been in Duluth a few days and I came up here on the assurance of my husband that he was at work and would be home. When I arrived here I found him drunk and he has remained in that condition almost since. He has been dismissed from his position and has squandered in this latest spree at least \$500. I took my children and my clothes and I have about \$25 to get home with after paying for the ticket to Chicago. This is the first time my husband has behaved in the manner it has become a habit with him which I cannot break and I do not choose to be dragged down with him into the mire. I think my best course is to go to my parents. They have helped him very frequently and he always says that he will help me. This is the first time he has threatened to shoot me."

## A CYCLING MEET.

Duluth Wheelmen's First Annual Race on Memorial Day.

Duluth cyclists are all on the qui vive over their first annual club race which takes place Monday, May 30, at 4 o'clock in the afternoon after the close of the Memorial day parade and observances. The "meet" is under the auspices of the Duluth Cycle club which now has thirty-eight active members. The officers of the organization are as follows: President, Tim Duncan; vice-president, John Green; secretary and treasurer, John Moore; captain, Jos. Dodge; first lieutenant, Chas. Clawson; second lieutenant, Chas. Davis. The main prize for the first race is a massive silver cup donated to the club by Capt. Dodge, and it must be won three times before it becomes the personal property of any one. In addition to this the club will offer for the first time to the member who wins the fastest time during the race. This medal has also to be won three times before it becomes the property of the winner. Four other prizes will be offered and will be announced before the morning exercises and Culver post in the afternoon. These latter prizes will be the property of the club member who wins the race by the time of the race. They have already entered for the race and the club bugler will sound "mount and away" at 4 o'clock and the race will start at 4 o'clock. The race will be a 15-mile run, from the Herald office corner at Fifth avenue west and Michigan street to Lester park, around a designated state and timberkeeper, and return. There will be a system of hand caps, graduated according to the capability of the cyclists, and it will be an exciting event. Timekeepers will be announced and the prizes displayed in a few days.

## MEMORIAL DAY.

It will be fittingly observed by the G. A. R. posts. The joint committees of Gorman and Culver posts G. A. R., met yesterday afternoon at the city hall to make arrangements for observing Memorial day. Gorman post will have charge of the morning exercises and Culver post in the afternoon, all participating. The forenoon exercises will be held at Forest Hill cemetery at 10:30 o'clock and the graves of veterans will be decorated. In the afternoon a grand parade will be given. All the civic societies, the bands and the Sons of Veterans, who will fire the volley, will participate. Mayor d'Arbont will deliver the oration at the graves in the morning and W. G. TenBroek will be marshal of the day. Memorial Sunday morning, May 29, the posts will attend the pro-cathedral and Bishop McGillicuddy will deliver an appropriate sermon. The committees in the morning and Culver post and Comrades Holden, Robbins, Daily and Osterhaus from Gorman post.

Grant & Foley Gutting. The contract for building the tracks of the Superior Terminal & Belt Line railway from New Duluth to Allouez Bay, about six miles in length, has been let to Grant & Foley to be completed by August 1. This firm has also secured the contract for putting in the Duluth & Winnipeg ore dock on Allouez Bay, and have sub let this portion of the work to T. A. Sheridan & Co. It will require 2,000 piles each about 30 feet in length and 2,000,000 feet of timber to build the dock.

Another Railroad. The Duluth, Mississippi & Northern railway company filed articles of incorporation today with the register of deeds.

The capital is \$25,000 and the incorporators are A. W. Wright, of Alma, Mich., and C. W. Wells, F. C. Stone, C. H. Davis and W. T. Kewell, of Saginaw, Mich. The company was projected some time ago and is to build a line from the westerly end of the Mesaba range to connect with the Duluth & Winnipeg at Swan river.

## ORGAN RECITAL.

Mr. John Loman, Mr. Sidney Brown, and Mr. Lammers. Duluth certainly is a musical city. A competent authority, after the "Frisella" performance last Thursday night, expressed his amazement at the work of our well known amateurs. In another line there is a musical treat in store for us at the Congregational church tomorrow night. Mrs. John Loman has arranged an organ recital, assisted by Mr. Sidney Brown and Mr. Lammers. Mrs. Loman is a thorough master of the organ and lovers of good music unite with pleasure such names as Gullmatt, Lefebvre, Wely, Mendelssohn and Schubert on the program. We understand that the proceeds are to be given to the benefit of the hospital.

The Cincinnati Lease.

A meeting of the stockholders of the Cincinnati Iron company has been fixed for May 14 at 3 o'clock at the rooms of the Duluth stock exchange to consider the advisability of leasing the mine to the Kimberley syndicate. The deal is practically closed, the syndicate to mine 100,000 tons annually at a royalty of 60 cents.

The Morning's Grind.

Seven people were arraigned before Judge Powell in the municipal court this morning charged with drunkenness. Six of them pleaded guilty; the seventh was discharged. The examination of John Merrick, who is charged with selling liquor without a license on the Mesaba range, has been postponed until next Tuesday.

A Needed Improvement.

There is a demand for the paving of Third avenue west from Michigan to Second streets and it is more than probable that a petition will soon go into the council asking for it. This avenue is used more than any other going up the hill and is the one upon which the street cars run. The sidewalks are also in condition.

Dr. J. B. Weston has removed his office from the Metropolitan block to room 8, Norris-McDougall block.

## CHANGING ITS TACTICS

Minnesota Point Street Railway Only Wants Assurances That Its Rights Will Be Protected.

The Council and the Company Confer This Afternoon and the Latter Explains Its Position.

A Stockholder Has Something to Say of His Company's Claims and Its Intentions.

A meeting of the council as a committee of the whole is to be held this afternoon, if enough of the aldermen get together, for the purpose of conferring with the Minnesota Point Street Railway company in regard to its rights on the Point.

There is a difference of opinion among the aldermen as to what the stand which the company took means, but a number of them believe that it was a bluff intended to draw on a purchase of rights by the Duluth & Northeastern Railway and Terminal company.

One of the aldermen said to a Herald reporter last evening that this railway company had taken an option on the Street Railway company's plant and franchise at \$75,000, but could not see that much in it and dropped the option.

This gentleman also intimated that it was the intention of the aldermen, if the company insisted on the rights which it claims on the point, to order it to build tracks on the streets which they wished to hold.

The officers of the company now say that they do not intend to prevent other companies from going in on the point.

R. F. Edson said this morning: "We are not trying to obstruct the improvement of the point in any way, but our company has got rights there which we propose to have protected. We have laid out the same streets that ours are."

I have as much interest in seeing the point developed as anyone else and we put our money in there, the first that went in, when everyone said we were fools to do it. The Herald said last night that our line was idle a month this spring. That was after we had given an option to the Northeastern scheme and had their assurances that the line would be purchased.

Mr. Edson says that the company wants the council to assure it that its rights on Minnesota avenue and Lake avenue will not be interfered with. Just as soon as this is done a finely equipped electric line will be put in, running down one avenue and back the other. He said that the company's franchise cannot be purchased today for less than twice the price given Mr. Sargent.

In answer to the question as to whether his company's rights amounted to anything in view of the supreme court decisions on exclusive franchises, Mr. Edson said that the company believed its franchise to be unquestionably valid and would maintain that it is exclusive through all the courts.

To the Public.

Mrs. C. W. McFadden left last evening for a month's visit in Iowa.

Mrs. N. J. Miller will return from New York about the middle of this month.

Mrs. Stocker leaves for Chicago this evening and will be gone for a short time.

Mrs. C. S. Allen will leave next Monday for a visit of several months in Massachusetts.

C. M. Hill, the Saginaw lumberman, came down from Mesaba yesterday. He has a mill at Merritt.

Mrs. J. B. Culver and daughter, who are in Paris, will sail next month on their return to Duluth.

Amos Shephard returned today from Brainerd where he attended the Republican district convention.

Mrs. F. S. Whitelaw of Tacoma, formerly Miss Culver, and well known in Duluth, is visiting friends here.

Clerk C. Powell Grady, of the municipal court, is confined to his home through illness. During his absence Clerk Deputy J. H. Tischer is acting clerk.

J. H. Herchman, of Edinburgh, Scotland, is stopping at the Spaulding. He has been making a tour of America, having already been away from home about a year.

Mrs. Dan McRae left last evening on the steamer Monarch for her old home in Kincardine, Ont., having been called there by the severe illness of her mother, Mrs. Capt. Alexander Stewart.

W. J. Rattle, of Cleveland, is in the city. Mr. Rattle is senior partner of the firm of Rattle & Nye, analytical chemists. This firm has made the assays for the Cincinnati Iron company among others.

E. D. Sawyer, H. E. Becker and C. F. Nester, of Ohio, all members of the Ohio and Buckeye Mining companies, returned from St. Paul this morning. Lee Thurman, grandson of the "Old Roman," is expected here in a few days. He intends to make Duluth his home.

We have secured, for our piano tuning department, the services of Mr. Evans, a graduate of Boston conservatory. Mr. C. A. Gregory will also continue with us. With two tuners we can give prompt attention to all orders. DULUTH MUSIC CO.

MORE CAPITAL COMING.

A New Loan & Trust Company is Organized.

Articles of incorporation have been filed with the secretary of state of the Duluth Loan, Deposit and Trust company with an authorized capital of \$500,000. The incorporators are George C. Buntin, Terra Haute, Ind.; F. L. Janeway, New York; N. J. Upham, H. A. Wing and others of Duluth. N. J. Upham & Co. are the promoters of the new company and will turn all the business except insurance over to the new company. The paid in capital will be \$200,000 and will be mostly Eastern money. F. J. Pufford has resigned the position of cashier of one of the New York banks and will be cashier and treasurer of the company. He brings \$50,000 with him and will arrive here in two weeks. The officers of the company will be elected within a few days and business will commence about June 1. Other stockholders are F. J. Janeway, of New York; W. K. Janeway, and John Walden, of New Brunswick, N. J.

WANTS CLEVELAND.

A Southern Democrat Expresses Himself on Presidential Candidates.

Gen. C. J. Anderson, of Richmond, Va., who has been in Duluth nearly a week attending to important business connected with his interests here, is a Democrat and a typical Southerner. He is also strong Cleveland man, though he does not lay any claim to being a politician. In conversation with a reporter the other day, the general expressed his views pretty freely on this presidential question.

"Hill came South and was entertained hospitably, as all people are who come down our way, but he must not imagine for a minute that the Southern sentiment is in his favor. I tell you that Cleveland has captured the heart of the people. Public opinion is all on his side and I think he is sure to be elected. If he is, he stands some show of being elected, but there is no other Democrat in the United States. I don't care who he is, can beat Harrison. If the Democrats nominate Campbell, of Ohio, who made such a gallant fight last fall against terrible odds, for vice president, he would strengthen their ticket materially."

Attached the Logs.

An attachment has been levied by Bruce P. Campbell on 50,000 logs cut by him for Archibald Campbell. A complaint was filed sometime ago in the case. Traphagen & Fitzpatrick sue Frederick G. Hodges to recover \$2432.50 for drawing the plans and getting the bids on a block built on lots 30 and 32, Central division.

Pushing the Missabe Work.

Timothy Foley came down yesterday from the Mesaba range and went to St. Paul last night. Work is progressing rapidly all along the line of the Missabe & Northern road and everything points to an early completion. All the work is being done under sub-contracts, Messrs. Foley & Grant exercising and pushing it. The bridge work is being rushed and nearly all the piles are driven.

The seats for the Swedish Ladies' concert tomorrow night are selling rapidly and those who want good seats should select them at once. For sale at the box office, Temple Opera, and Kilgore & Siewert's.

A Swedish Concert.

A very large audience assembled at Harman Block last evening to see the very delightful singing of the Swedish Ladies' concert company. A more perfect ensemble of voices could be scarcely met with in any entertainment of the kind. The singing was supplemented by one of the cleverest humorists that Boston has ever sent to this city. Mr. Melvin R. Day—Albany, N. Y., \$50,000 to loan on good collaterals at 307 Lyceum. E. C. Dennett.

For reliable footwear for ladies' and gentlemen, go to the shoe store of F. G. Valen, Long Block, 5 East Superior street.

"Moccasin" social at Endion church tomorrow evening. All who attend will receive a pair of moccasins. Twenty-five good refreshments.
